History

In Vino Erotico is an emotional wine... to be experienced. The result of a long reflection and a tasting done with a precise idea in mind : create a wine with a touch of sensuality, aromatic enchantment and a crisp texture. If Apollinaire had written about a wine... would In Vino Erotico have been the lucky one ?

Wine is a world of sensations, In Vino Erotico was created to satisfy them. Selecting vine plots with delicate characteristics, associated with the art of assembling the varietals, produce a wine that is silky, crisp and elegant...
